QR codes take you where you want to go quickly and easily

Whether you require **product information**, **spare parts** or **accessories**, details on **warranties** or **aftersales services**, or if you want to watch a **product demonstration video**, our QR codes will take you there in no time at all.

**What is a QR code?**
A QR code (QR = Quick Response) is a type of matrix that can be read with a smartphone camera and that contains a link to a website or contact details, for example.

**Advantage:** You do not need to manually enter a website address or contact details.
How it works
To scan the QR code, all you need is a smartphone with QR code reader software and an internet connection.* This type of software can be downloaded for free from your smartphone’s app store.

Try it out now
Just scan the QR code with your smartphone and find out more about the Aldi product you have purchased.*

Your Aldi Service Portal
All details mentioned above can also be found in the Aldi Service Portal at www.aldi.co.uk.

*Depending on your tariff plan you may be charged for the connection.
General information

Reading and storing the user manual

This user manual accompanies this Wireless Activity Tracker. It contains important information about operation and care. For improved readability, the Wireless Activity Tracker will only be referred to as “wristband” below.

Before using the wristband, read the user manual carefully. This particularly applies for the safety notes. Non-observance of this user manual may result in personal injury or cause damage to the wristband.

The user manual is based on the standards and rules in force in the European Union. When abroad, you must also observe country-specific guidelines and laws.

Store the user manual for future use.

Make sure to include this user manual when passing the wristband on to third parties.
Explanation of symbols

The following symbols and signal words are used in this user manual, on the wristband or on the packaging.

⚠️ WARNING!

This signal symbol/word designates a hazard with moderate degree of risk which may lead to death or severe injury if not avoided.
CAUTION!

This signal symbol/word indicates a hazard with low risk that, if not avoided, may result in minor or moderate injury.

NOTICE!

This signal symbol/word warns against possible damage to property or provides you with useful additional information.
This symbol provides you with useful supplementary information on use.

Declaration of conformity (see chapter “Declaration of conformity”): Products marked with this symbol fulfil the requirements of the R&TTE 1999/5/CE and RoHS 2011/65/EU directives.

Google Play™ and Android™ are trademarks of Google Inc.

Apple, the Apple logo, iPad, and iPhone are trademarks of Apple Inc., registered in the U.S. and other countries. App Store is a service mark of Apple Inc.

The Bluetooth® word mark and logos are registered trademarks of Bluetooth SIG, Inc. and any use of such marks by Krippl-Watches is under license.

Other trademarks and trade names are those of their respective owners.
Safety

Proper use

The wristband is exclusively designed for measuring your activity and sleeping habits. It is designed for collecting data for analysis with the Crane Connect app. You can use this data to help you reach your goals in terms of fitness, level of activity and sleep.

The wristband is only intended for private use and is not suitable for commercial, therapeutic or medical applications. It is not a children's toy or a medical device.

Only use the wristband as described in this user manual. Any other use is deemed improper and may result in damage to property or even personal injury.

The manufacturer or vendor accepts no liability for damage caused by improper or incorrect use.
Safety notes

⚠️ WARNING!

Risk of swallowing and choking!

If small children or animals swallow the display module, they could choke on it.
- Keep the display module away from children and animals.
- If children or animals have swallowed the display module, immediately contact a physician.
**WARNING!**

Risk of injury!
Incorrect operation may result in severe injury.
- If you have a pacemaker, be absolutely sure to ask your physician before using the wristband for the first time.

**WARNING!**

Danger of explosion!
Rechargeable batteries may explode if they are excessively heated up.
- Do not heat up the display module.
- Keep the wristband away from hot surfaces.
- Do not throw the display module in an open fire.
- Protect the display module from direct sunlight.
- Do not charge the rechargeable battery in the direct vicinity of hot surfaces or objects.

**WARNING!**

**Risk of chemical burns from battery acid!**

Leaking battery acid may lead to chemical burns.
- Do not allow battery acid to come into contact with skin, eyes or mucus membranes.
- In the event of contact with battery acid, immediately flush the applicable areas with plenty of clean water and consult a physician.
CAUTION!

Risk of injury!

Incorrect operation may result in injury.
- Do not use the wristband if it exhibits visible damage.
- Do not open the housing of the display module and have qualified professionals perform repairs. Liability and warranty claims are waived in the event of repairs performed by the user or incorrect use.
NOTICE!

Risk of damage!

Improper handling of the wristband may damage it.
- Keep sharp objects away from the wristband.
- Store the wristband so that there is no risk of it falling into a tub or sink.
- Do not take the rechargeable battery out of the display module; it is firmly integrated in it and cannot be replaced.
- Only use the USB charger, which is connected to a computer or external power supply, to charge the empty rechargeable battery.
- You can use the wristband at ambient temperatures between -10 °C and +60° C.
- Do not submerge the display module in water or other liquids.
- Do not place any objects on the wristband and do not apply pressure to the display.
NOTICE!

Risk of damage!
Strong magnetic fields (e.g. transformers) may cause fluctuations in the transmission of the data measured.
- Avoid strong magnetic fields

Checking the wristband/product contents
1. Take the wristband out of the packaging.
2. Remove the protective foil from the display 3.
3. Check to make sure that the delivery is complete (see fig. A).
4. Check whether the individual parts exhibit damage. If this is the case, do not use the wristband. Contact the manufacturer at the service address specified on the warranty card.

**Functions**

To reach your goals in terms of fitness, level of activity and sleep, you can use the wristband to record your level of activity and sleeping habits. In the steps, distance and calories modes, a progress bar indicates how close you are to reaching your goals. Once you reach your goal, the corresponding progress bar will blink and a sound will be emitted. You can set your goals with the Crane Connect app in order for you to determine the best target value, the Crane Connect app will also specify the individual limits.
The wristband has the following functions:
- Time
- Steps
- Distance
- Calories
- Activity time
- Progress check
- Setting of daily goals (steps, distance and calories only in conjunction with the Crane Connect app)
- Recording of sleep cycles with the Crane Connect app (waking up phase, light sleep phase, deep sleep phase)
- Alarm function
The Crane Connect app provides a detailed view for each target value. It provides you with an itemised view of the daily recorded data. The detail view for sleep mode even offers the possibility of displaying the sleep cycles (waking up, light sleep and deep sleep cycle).

**Data storage**

The wristband saves all measured data for seven days. From the 8th to 30th day, only the daily totals will be saved. If during this time you do not connect the wristband with the Crane Connect app, the first record will be overwritten by the last one on the 31st day.
## Modes

The wristband has six different modes you can choose from:

<table>
<thead>
<tr>
<th>Mode</th>
<th>Symbol</th>
</tr>
</thead>
<tbody>
<tr>
<td>Time mode</td>
<td>⌚</td>
</tr>
<tr>
<td>Step counter mode</td>
<td>⚽️</td>
</tr>
<tr>
<td>Distance mode</td>
<td>🏃️</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Mode</th>
<th>Symbol</th>
</tr>
</thead>
<tbody>
<tr>
<td>Calorie mode</td>
<td>🔥</td>
</tr>
<tr>
<td>Activity time mode</td>
<td>🏃️⏰</td>
</tr>
<tr>
<td>Sleep mode</td>
<td>🕒💤</td>
</tr>
</tbody>
</table>
Time mode 🕒

Time mode is the first mode that appears on the display module. You can switch to the other modes from this mode.

- To switch the mode, push the menu button 4 from the time mode:
  - To switch to step counter mode, push the menu button once.
  - To switch to distance mode, push the menu button twice.
  - To switch to calorie mode, push the menu button three times.
  - To switch to activity time mode, push the menu button four times.
  - To switch to sleep mode, push the menu button five times.

The display will go out automatically after three seconds. To switch it back on, push the menu button again.
Step counter mode

The wristband counts the steps you cover in a day. The more steps you cover during one day, the longer the progress bar at the top of the display will become. It shows you how close you are to reaching your target number of steps. Once you have reached your target number of steps, the progress bar will blink and a sound will be emitted. By factory default, a daily target of 10,000 steps has been set. You can use the Crane Connect app to change this setting and turn the sound on or off.

At 12 midnight, the step counter will automatically reset to zero.

If the wristband is in sleep mode, the wristband will not measure the steps you cover.
Distance mode

The wristband determines the distance you cover in one day in miles. The calculation is based on the steps counted and your individual data (step length, height, gender), which the wristband obtains from the Crane Connect app.

The greater the distance you cover during one day, the longer the progress bar at the top of the display will become. It indicates current progress with respect to your target distance. Once you have reached your target distance, the progress bar will blink and a sound will be emitted. By factory default, a daily target of 3.5 miles has been set. You can use the Crane Connect app to change this setting and turn the sound on or off.

At 12 midnight, the distance will automatically reset to zero.
If the wristband is in sleep mode, the wristband will not measure the distance you cover.

**Calorie mode**

The wristband calculates the calories you burn in a day. The calculation is based on your level of activity and your individual data (height, age, gender, weight, duration of sleep, etc.), which the wristband obtains from the Crane Connect app. The more calories you burn during one day, the longer the progress bar at the top of the display will become. It shows you how close you are to reaching your daily target. Once you have burned the desired number of calories, the progress bar will blink and a sound will be emitted.
By factory default, a daily target of 3,000 calories has been set. You can use the Crane Connect app to change this setting and turn the sound on or off. You can determine the number of calories burned directly on your wristband or via the Crane Connect app.

At 12 midnight, the number of calories is automatically reset to zero. Please keep in mind that calories are also burned while you sleep and the number of calories burned is recorded from 12 midnight on. When you wake up in the morning, the number of calories burned can be checked on the display of the wristband.

**Activity time mode** ⚽️

The wristband measures the amount of time you are active in hours and minutes. At 12 midnight, the activity time is automatically reset to zero.
Sleep mode

The wristband measures your sleep in hours and minutes. The wristband does not automatically recognise that you are sleeping – you have to activate sleep mode for this (see chapter “Activating sleep mode”). You can also wear the wristband when you go to bed.

The wristband records the duration and quality of your sleep; the Crane Connect app provides you with an analysis of your sleep cycles and quality.

Alarm function

You can use the Crane Connect app to set an alarm function. Overall, you can set up to three alarms. When an alarm activates, a sound will be emitted for approx. 30 seconds; the alarm symbol («Wake») and current time will be shown in alternation on the display.

- Push the menu button 4 to switch off the alarm.
Compatible Bluetooth® devices

The following devices with Bluetooth® Smart Ready (Bluetooth® 4.0 and above) are compatible with the wristband and the Crane Connect app:

- Apple® iPhone® 4S and more recent versions
- Apple® iPad® 3rd generation and more recent versions
- Apple® iPad mini™ of the 1st generation and more recent versions
- Apple® iPad Air™ and more recent versions
- Smartphones and tablets with Android™ 4.3 and more recent versions
You can find a complete list of supported devices online at www.cranesportsconnect.com/compatibility.

**Water resistance**

The following table will tell you in what situation the wristband is waterproof up to 3 bar.

<table>
<thead>
<tr>
<th>Situation</th>
<th>Watertight to 3 bar</th>
</tr>
</thead>
<tbody>
<tr>
<td>Rain splashes</td>
<td>Yes</td>
</tr>
<tr>
<td>Situation</td>
<td>Watertight to 3 bar</td>
</tr>
<tr>
<td>-----------------------------------</td>
<td>---------------------</td>
</tr>
<tr>
<td>Washing hands (splash water)</td>
<td>Yes</td>
</tr>
<tr>
<td>Showering</td>
<td>Yes</td>
</tr>
<tr>
<td>Bathing/swimming</td>
<td>Yes</td>
</tr>
<tr>
<td>Water sports (e.g. diving)</td>
<td>No</td>
</tr>
</tbody>
</table>

*The specification of bar refers to the air overpressure used in connection with the watertightness test for the wristband in accordance with DIN 8310.*
Operation

Charging the rechargeable battery

The wristband is delivered in shipping mode. To switch on the display module for the first time, hold the menu button for five seconds. Otherwise it is not possible to charge the display module.
The charge status of the rechargeable battery is shown on the display. The charge status is indicated using the following symbols:

<table>
<thead>
<tr>
<th>Symbol</th>
<th>Charge status</th>
</tr>
</thead>
<tbody>
<tr>
<td>🍀🍀🍀irate</td>
<td>₹8–100 %</td>
</tr>
<tr>
<td>🍀🍀irate</td>
<td>56–77 %</td>
</tr>
<tr>
<td>🍀irate</td>
<td>33–55 %</td>
</tr>
</tbody>
</table>

- Push the menu button 🎯 to determine whether the rechargeable battery is completely empty.
- The symbol 🌡 will appear on the display for three seconds.
To charge the rechargeable battery:

1. Take the display module 2 out of the band 1 (see fig. B) or the clip 5.
2. Insert the display module in the USB charger 6 (see fig. C).
3. Connect the USB charger e.g. to a computer.

You can also use a mains adapter with a USB port to charge it (not included in the product contents).

**Inserting the display module**

- Push the display module 2 into the band 1 or the clip 5 (see fig. D) so that it is secure and unable to fall out.

You have successfully assembled the wristband and can now use it.
Putting on the wristband/clip

We recommend that you do not wear the wristband on your dominant hand.

- Put the desired band 1 with the display module 2 around your wrist and fasten the band.
  The band should not be fitted too tightly, but also not too loosely around your wrist. It must not cause you any pain, but it should be secure enough so as to prevent loss.
- Alternatively fasten the clip 5 with the display module 2 e.g. on a trouser pocket, shirt, bra or belt.
Activating the display module

Fully charge the wristband before using it for the first time (see chapter “Charging the rechargeable battery”).

- To activate the display module, hold the menu button \( \text{4} \) down for two seconds.
  “How are you?” will appear on the display.

Switching the display module off

1. In time mode, push the menu button \( \text{4} \) for two seconds.
   The messages \( \text{3} \) “Pair?” and “Off?” will appear on the display \( \text{3} \).
2. After “Off?” has appeared on the display, push the menu button to switch the display module off.

Setting the time and time mode
Time mode indicates the current time. This is automatically adopted by the Crane Connect app. In the app, you can set the time mode to 24 h or 12 h.

Downloading and installing the Crane Connect app
If you would like to use the wristband in combination with the Crane Connect app, you must download the Crane Connect app and install it on your smartphone for example.
- Download the free Crane Connect app from the App Store, from the Google Play Store at www.cranesportsconnect.com/downloads or via the following QR code.
QR code for Android:

QR code for iOS:

- Install the Crane Connect app on your smartphone.
- Follow the step-by-step instructions for this.
Creating a user

1. To create a user with the Crane Connect app, follow the step-by-step instructions for registration.

2. To perform user and product-specific settings, select the icon “All Settings”. Various icons will now appear on the display.

3. To log on with an existing user, select the icon “User Settings”.

4. Follow the subsequent step-by-step instructions in the Crane Connect app.

You can also create new users on the website www.cranesportsconnect.com.
Connecting the wristband with the Crane Connect app

Make sure that the Bluetooth® function on your smartphone has been activated.

1. Once the user settings are complete, return to the “All Settings” menu.
2. Select the icon “Activity Tracker”.
   You can now edit additional settings of the wristband.
3. To connect the wristband with your smartphone, select the item “Connect” in the “Pairing” field. A new display window will appear, select “Pairing Now“.
4. Select “Pair?” on the display module by pushing and holding the menu button down for approx. two seconds in time mode.

The battery symbol followed by “Pair?” will appear on the display.

5. Push the menu button again.

“Pairing...” will appear for approx. 20 seconds on the display. During this time, the wristband will connect with your smartphone. Once the connection has been successfully established, the symbol will appear on the display.

If the connection cannot be established, the symbol will appear on the display.

6. Once you have successfully connected the wristband with your smartphone, return to the “Home” menu.

From there, you can access all analyses of the measured data via the icon “Activity Tracker”. As soon as you have connected the wristband with the Crane Connect app, all recorded data will be transferred to it.
If the Internet connection on your smartphone is active, the Crane Connect app will automatically upload all data measured to the website www.cranesportsconnect.com for permanent storage.

Using the wristband without the Crane Connect app
You can also use the wristband without the Crane Connect app. In the process, keep in mind that the personal data of an average user is used to determine the calories burned and the distance walked. As a result, your actual results may differ from the determined results.

Without the Crane Connect app, your data can only be saved for the current day. The data can only be permanently stored and displayed once the data has been transferred and uploaded to the website while you are connected to the Internet.
Without the Crane Connect app, you cannot adapt the factory default targets to your individual targets. The following values have been set by factory default:

- Target steps: 10,000 steps
- Target distance: 3.5 miles
- Calorie consumption: 3,000 kilocalories

To adjust the time, press the reset button 7 at noon to set the time to 12:00.

**Activating sleep mode**

Wear the wristband when you go to bed and activate sleep mode as follows:

1. In sleep mode, hold the menu button 4 down for approx. two seconds.
   
   The message “Sleep?” will appear on the display 3.

2. Push the menu button again to activate sleep mode.
The icon 🛋️ will appear on the display. Sleep mode has now been activated. The duration and quality of your sleep will now be recorded. You can view the data collected via the Crane Connect app.

The current time will appear on the display if you push the menu button now.

Deactivating sleep mode
1. After waking up, hold the menu button ⬇️ down for approx. two seconds.
   The message “Wake?” will appear on the display.
2. Push the menu button to end sleep mode.
   ☀️ and the duration of your last sleep will appear on the display.
Resetting the wristband

If the wristband fails to respond, or if the display performs erratically, press the reset button 7 at the back of the display module 2 to reset the wristband. In case the wristband is connected with the app, you can also reset the wristband through the settings of the app.
Care and storage

Cleaning the wristband

NOTICE!

Risk of damage!
Improper handling of the wristband may result in damage.
- Do not use any aggressive cleaners, brushes with metal or nylon bristles, sharp or metallic cleaning utensils such as knives, hard scrapers and the like. They could damage the surfaces.
1. Use a soft brush, a small amount of water and a mild soap to clean the band.
2. Wipe the display module off with a soft, damp (if necessary), lint-free cloth.
3. Let the band and display module air dry completely before storing them.

**Storing the wristband**

**NOTICE!**

**Risk of damage!**
Improper handling of the wristband may damage it.
- Store the wristband in a suitable location between -20 °C and +70 °C.
- Keep the wristband away from direct sunlight.
- Store the wristband in a clean, dry area.
## Troubleshooting

Use the following information and our FAQs (frequently asked questions) on our website to rectify any faults: www.cranesportsconnect.com/faq.

<table>
<thead>
<tr>
<th>Fault</th>

Operating temperature: -10 °C to +60 °C
Battery: rechargeable battery
Length of the wristband: approx. 27 cm
Disposal

Disposing of the packaging

Dispose of the packaging sorted according to type. Dispose of cardboard with waste paper recycling and leave films with your recyclables collection point.

Disposal of waste equipment

(Applicable in the European Union and other European countries with established systems for separated collection of recyclables.)
Waste equipment must not be disposed of together with domestic waste!

This symbol indicates that disposing of this product together with domestic waste is prohibited under the directive on waste electrical and electronic equipment (2012/19/EU) and national laws. This product must be left with a collection point specifically designated for this purpose. This can be carried out by returning the product on purchasing a similar product or leaving the product with an authorised collection point for recycling of waste electrical and electronic equipment. Due to potentially hazardous materials which are often contained in waste electrical and electronic equipment, incorrect handling of waste equipment may have adverse effects on the environment and human health. By disposing of this product correctly you also contribute to an effective usage of natural resources. Information on waste equipment collection points can be obtained at your local authorities, public bodies responsible for waste management, an authorised body responsible for the disposal of waste electrical and electronic equipment or your waste collection service.
Batteries must not be disposed of together with domestic waste!

As a consumer you are required by law to leave any batteries, regardless of whether they contain hazardous material* or not, with a collection point in your community/your borough or return them to your retailer to be disposed of in an environmentally-friendly manner.

AFTER SALES SUPPORT

service@cranesportsconnect.com

MODEL: AE6-CDAT-6E, AE6-CDAT-6F, AE6-CDAT-6G, AE6-CDAT-6H
PRODUCT CODE: 93791

Toll free service hotline. Call rates from mobile phones may vary. Please allow time (up to 10 seconds) for the international connection to take place.
Hotline availability: Mo–Fr 7 am–7 pm.
Warranty conditions

Dear Customer,

The ALDI warranty offers you extensive benefits:

**Warranty period:** 3 years from date of purchase.

**Costs:** Free repair/exchange or refund.
No transport costs.

**Hotline:** Free hotline.
ADVICE: Please contact our service hotline by phone, e-mail or fax before sending in the device. This allows us to provide support in the event of possible operator errors.

In order to make a claim under the warranty, please send us:

- the faulty item together with the original purchase receipt and the completed warranty card.
- the product with all components included in the packaging.
The warranty does not cover damage caused by:

- **Accident** or **unanticipated events** (e.g. lightning, water, fire).
- **Improper use** or **transport**.
- **Disregard of the safety** and **maintenance instructions**.
- **Other improper treatment** or **modification**.

After the expiry of the warranty period, you still have the possibility to have your product repaired at your own expense. If the repair or the estimate of costs is not free of charge you will be informed accordingly in advance.

This warranty does not affect your statutory rights. In the event that a product is received for repair, neither the service company nor the seller will assume any liability for data or settings possibly stored on the product by the customer.
We request all customers contact us via the internet, e-mail or phone before returning any products to us.

Please have the model no. ready, which can be found either on the back or on the bottom of the product.
